U^{OF}L Physicians | SURGERY

502.583.8303 • UofLphysicians.com/surgery

When it comes to surgery, your patients may be willing to travel anywhere to receive the latest treatments and world-class care.

But we went there so they won't have to.

At **UofL Physicians – Surgery**, our internationally renowned surgeons have already trained at the top institutions in the world, and we have made significant contributions to surgical care on a regional, national and international level. We bring what we have learned back home to our patients and provide leading-edge surgical treatment.

Our surgeons have a long-standing commitment to excellence in patient care, education and research. Our high standards of surgical excellence and compassionate care result in a unique level of comfort and confidence between our more than 40 multi-specialty surgeons and their patients. In addition, a highly skilled support staff works closely with our physicians.

We take great pride in our commitment to keeping referring physicians informed, involved and up to date on their patients' treatment.

We offer a broad range of services from simple procedures, such as gallbladder surgery and hernia repair, to cosmetic surgery to the most complex, including cancer treatment, vascular surgery and much more. Many of our procedures are minimally invasive, which means faster recovery, less scarring, and a quicker return to what matters most.

We hope this directory will make it easier for you to contact us as needed.

Thank you.

A Surgical Odyssey

The da Vinci Has Landed

At **UofL Physicians – Surgery**, we pride ourselves on staying at the forefront of surgical innovations. One such recent technological advance is the **da Vinci Robot**, which enables surgeons to perform delicate operations with breakthrough precision.

We are using the Robot to treat colorectal and head and neck patients who are candidates for the minimally invasive procedure. The Robot provides us with exceptional vision, precision, dexterity and improved access to the treatment site.

As a result, our patients experience less pain and quicker recovery.

**UofL Physicians – Surgery —
using the latest technology
to provide the best surgical care.**

Call today to refer a patient or to learn more.

WE WROTE THE BOOK ON PLASTIC SURGERY.

Actually — we've written several.

We are **UofL Physicians – Plastic Surgery**, and we not only transform our clients through aesthetic surgery, we are changing the face of cosmetic surgery. You see, in addition to being top-notch cosmetic surgeons, we regularly lecture, research, publish scientific articles and teach others around the globe our leading-edge techniques.

What this means to you is because we are **THE EXPERTS** of our profession, our clients not only benefit from our knowledge, skills and expertise, they have access to the latest, most innovative treatments.

We are board-certified plastic surgeons who are nationally renowned faculty in UofL's Department of Surgery and active members of the American Society of Plastic Surgeons.

We offer the full scope of cosmetic surgery procedures including breast enhancement surgery, breast reconstruction, body contouring, liposuction, face lifts, nasal recontouring, eye lifts, Botox, wrinkle fillers and chemical peels.

Your body is our canvas, and we transform it to create an exquisite masterpiece that showcases your beauty. The results are extraordinary.

Leaders in Vascular Care.

UofL Physicians – Vascular Surgery consists of a team of renowned leaders in vascular surgery and minimally invasive endovascular therapy.

We provide care and treatment for a broad spectrum of circulatory disorders, including peripheral vascular and aortic disease, carotid disease, vein disorders and thrombophlebitis.

We strive to precisely diagnose our patients' conditions and then provide the most effective therapy specifically tailored for each patient's needs.

In addition, our vascular surgeons are educators. We have written and lectured extensively on endovascular techniques and provided workshops for vascular surgeons throughout the Southeast helping them learn minimally invasive techniques.

Our highly skilled Vascular Surgeons are committed to providing excellent care for your patients.

To refer a patient, call today.
